Subject: Conversation with Contreras, Peter, Davies, Lauris

Kenknight, Jeff 11:23 AM:

here is a message from Mat about Dan conversation with the RA on LUB GWMA and late breaking request for information from HQ WD.

Kenknight, Jeff 11:23 AM:

[5/14/2020 11:14 AM] Martinson, Mathew:

Dan talked to the RA. RA would like the letter to be held until we can brief Anna Wildeman and the AA. I'm going to try to pull this together quickly so we don't stall our efforts. I'm happy to take the lead, but I'd like to talk about pitfalls with you. I'm on a NPDES BC conference call for a couple more hours, but I can find some time today.

We saved this conversation. You'll see it soon in the Conversations tab in Skype for Business and in the Conversation History folder in Outlook.

Davies, Lauris 11:24 AM:

ok. thanks for keeping me in the loop. The letter is still be revised with the OGC language, correct? I'll just stand by. Let me know if ECAD needs to be part of the awareness briefing.

Kenknight, Jeff 11:26 AM:

OGC language has been added and reviewed ready. I will connect with Mat. I said the biggest pitfall is extended delay now that its being elevated.
